Food Delivery Robot

www.nantatech.com

- ▶ Founded in **2018** as **MNT Technologies** and later in **2023** taken over by **Nanta Tech Private Limited**, the company focuses on **Turnkey ELV projects** delivering **AV, IT, CCTV, Fire Alarm, Robotics, and AI solutions** across multiple industries.
- ▶ Demonstrated innovation at major expo like **INFOCOM, FITAG, AVICN, and Palm 2024**.
- ▶ Achieved public listing on **Bombay Stock Exchange** in 2025, marking our growth from startup to global leader in equitable technology. Today Nanta Tech Limited become a public Limited company.
- ▶ **Mission**
To put the power of intelligent machines in service of people — building robotics, autonomous vehicle-grade AI, and AV solutions that make industries safer, operations smarter, and human potential limitless.
- ▶ **Vision**
A world where intelligent machines work alongside humanity as trusted partners — eliminating preventable harm, unlocking human creativity, and making India a global force in robotics and AI.

JOURNEY SO FAR

Exclusive partner for brands like BOSE, KRAMER, COMMSCOPE, LIBERTY AV, SAMSUNG IFP, MAXHUB, RUIGGE, NEARITY

Acquired MNT, established Nanta Tech Pvt Ltd, and launched Allbotix & OEM manufacturing.

AHMEDABAD BUSINESS EXCELLENCE AWARDS IN IT INDUSTRY

- **Robotics Solutions:**

A core market strength, our robotics division provides specialized automation for the Hospitality, Healthcare, Education (Smart Schools), Manufacturing, and Logistics sectors. We deliver comprehensive hardware and software integration tailored to meet specific industrial demands and client-specific workflows.

- **Nanta Tech AI and Software Development:**

We provide industry-native artificial intelligence and end-to-end technical solutions designed to bridge the gap between complex data and real-world execution. By integrating computer vision, natural language processing, and edge-computing navigation directly with hardware, we empower autonomous systems to eliminate operational bottlenecks in real-time. Beyond deploying specialized machine learning models, we offer a comprehensive digital ecosystem that includes professional training, high-performance web and mobile development, and bespoke software engineering to ensure your workflows are as intelligent as they are efficient.

- **AV Solutions:**

Nanta Tech delivers comprehensive end-to-end audio-visual solutions, seamlessly integrating AI-driven technology into corporate and commercial environments—from boardrooms and conference spaces to large auditoriums, immersive LED video walls, and advanced video conferencing ecosystems. Supported by a robust distribution network, we provide a premium range of high-performance AV hardware, including interactive flat panels, professional conferencing systems, high-speed connectivity infrastructure, and next-generation LED video walls—ensuring seamless communication, collaboration, and impactful visual experiences at every scale.

Overview

Allbotix AT9

The ALLBOTIX AT9 is an advanced service robot designed to revolutionize the dining experience across restaurants, hotels, corporate cafeterias, and banquet halls. Equipped with cutting-edge AI, multi-layer tray capacity, and smart obstacle avoidance, the AT9 navigates autonomously through dynamic spaces to deliver food and beverages with precision, efficiency, and safety. From streamlining food service in busy restaurants to enhancing guest experience in upscale hotels, and even optimizing operations at events and healthcare facilities, the AT9 adapts to a wide range of use cases. Its sleek, elegant design, customizable voice interactions, and stable motion make it not only a functional assistant but also an engaging presence that enhances service quality and reduces staff workload. By automating repetitive delivery tasks, the ALLBOTIX AT9 helps businesses improve turnaround times, increase customer satisfaction, and elevate operational efficiency.

Usage Scenario

Restaurant

Hotel

Nursing home

Office

Karaoke

Hospital

Shopping Mall

Internet Bar

Product Feature

AI-Powered Intelligence

Modular & Customizable Design

Agile & Stable Mobility

Human-Friendly Aesthetic

Safe and Stable Movements

Heavy-Duty Payload

Multi-Layer Delivery Trays

Spacious, detachable trays designed for carrying multiple dishes or items simultaneously, improving delivery efficiency and reducing service time.

Customizable LED Display Panel

Front-facing screen for branding, dynamic messaging, or interactive communication—ideal for promotions, greetings, or directions.

Modular Charging Dock

Smart auto-docking station enables seamless recharging with minimal human intervention, ensuring the AT9 is always ready for service.

Accessory Highlights

Voice Interaction Module

Integrated speaker with multilingual voice output and customizable messages for engaging and informative communication with guests.

Removable Side Panels & Branding Skins

Flexible design elements for easy customization and visual branding to match your venue's aesthetics or promotional themes.

Optional Sanitization Add-On

Attachable UV-C sterilization module for hygienic item delivery—ideal for healthcare and food service environments focused on safety.

Robot Size	50.0 x 52.7 x 126.6cm
Robot Weight	63 Kg
Moving Speed	0.1-1.0 m/s
Charging Time	4 Hours
Battery Life	Up to 18 Hours
Slope Angle	5°
Total Load Capacity	40kg
Minimum Passage Width	70cm
Navigation Algorithm	360 Lidar, RGBD sensor, Camera, Visual + Laser SLAM
